

DOMINIQUE ARSENAULT

VIDEO GAMES QUALITY CONTROL SPECIALIST

1-418-937-6179

domx7zero@gmail.com

4895 rue Berri, apt # 8
Montreal, QC, H2J 4A3

About Me

Experienced Senior and Team Leader, I had the opportunity to work with Leadership and to train personnel. My aim at this point is to use my training and experience to pursue new opportunities and challenges. Video Games amateur since childhood, I had the opportunity to study in the field and to work within the Community. Music is also an important part of my life and I continue to play regularly.

Experience

Lionbridge 2021 until today

Quality Control Specialist

Expert in bugs' identification and analysis of their interactions with other elements in the game. Trained new arrivals and controlled the quality of their work.

Keywor Studio_VMC/VOLT Name 2015 - 2021

Quality Control Specialist

Expert in bugs' identification and analysis of their interactions with other elements in the game. As a senior, compiled users statistics and other variables. Trained new arrivals and controlled the quality of their work.

Education

2014

Laval University

Digital Audio
Certificate

With this program, you develop the technical and auditory knowledge and skills that will allow you to pursue creative activities in digital audio production according to your professional or personal objectives.

2013

Laval University

Musical Culture
Certificate

This program allows you to acquire the essential notions of music, to know the main musical genres and to approach music from the historical, artistic and aesthetic points of view.

2007

Limolou College

Video Games Design

Video Game Design program aims to train people to perform functions related to the design of interactive electronic games. The work of the designer is primarily at the pre-production stage of the game, when the main lines of the game and the different levels or learning modules are defined (in edutainment).
